EDUCATION

Computer Science Engineering
Institute of Engineering, Jiwaji University

08/2015 - 09/2019   *Gwalior (MP)*

Specialization - CSE
- Percentage (72%)

XII
Green Wood Public School

04/2014 - 05/2015   *Gwalior (MP)*

Additional - Painting
- PCM (78.4%)

X
Green Wood Public School

04/2012 - 05/2013   *Gwalior (MP)*

Additional - Painting
- Percentage (77.9%)

WORK EXPERIENCE

Intern
National Fertilizers Limited

06/2018 - 07/2018   *Vijaipur, Guna (MP)*

NFL is the gas based unit at vijaipur, the gas is being recieved from HBJ gas pipeline being operated by Gas Authority of India Ltd (GAIL).

Tasks
- During this intern I worked with a team who's main task is to develop a website on NFL township. It helps new employees and new trainee to find the complete details about NFL township. My role is to develop frontend part which mainly include following technologies.

Technologies : *HTML, CSS ,JavaScript, PHP, MySQL.*

Major Project
Chatbot

06/2019 - 07/2019   *Gwalior (MP)*

Worked in group under HOD's guidance

Tasks
- It is an AI based chatbot, we used NLP and ML algorithm to train the bot. My responsibility was to make it more attractive and user friendly by the use of HTML, CSS, and JavaScript.

Technologies : *Python, NLP, ML, HTML, CSS, JavaScript, Flask.*

SKILLS

`HTML` `CSS` `JavaScript` `Git` `ReactJS` `Bootstrap5` `Jquery` `C` `Reasoning`

PERSONAL PROJECTS

Todo App
- Created Todo-App (with implementation of local storage) this app is about adding new items, deleting, editing them. Build on ReactJS.

Live Weather App
- Users can view the weather in their current location, can search for weather information of other places, weather icon or background image will change depending on weather conditions also toggle the temperature unit (Celsius or Fahrenheit).

Portfolio Web-Site
- Here is a collection of my work samples that showcase skills that I have. This web-site is built on ReactJs. I have used react-icons and swiper library for styling.
